

Nur Asmawi bin Subri

Front-end & Back-End Developer

About Me

I am passionate about software development. Skilled **Fullstack Developer** and also master of linux distro like Debian & Ubuntu system administration in the field of IT support environment with complex technical knowledge and strong time management skills. I am a quick learner and a team worker that gets the job done.

Experienced in networking-related with installation, maintenance, and troubleshooting since 2010. I am a critical thinker who can work under pressure, knowledgeable, leadership, performance-driven, and detail-oriented design professional with significant ability to work as a strong collaborator and perform well in team environments. I'm looking for a new work environment in a related field to fill the position and gain new experience.

References

Fazli Azran
Founder / CEO Gemas Lestari Sdn Bhd

“Maui displays exemplary professionalism and is able to take on challenges. He learns quickly and is an asset to any team.

En Hisham
Manager iSente Sdn Bhd

“Easy to give opinions in solving network or software problems. Have the advantage of working overtime due to interest in the field of information technology.

Sharifudin Hashim
Ceo Raisd Ai Sbn Bhd

“Using his expertise, he automated the security checks into the CI/CD pipeline, making sure every code change was scanned for vulnerabilities before it even reached production. He also designed a robust infrastructure in the cloud, with automated monitoring and incident response, so if any issues arose, the system could recover quickly without downtime. Nice person

Harisfazillah
Malaysian OpenSource Chief

“Maui is an active contributor to open-source projects, where he applies his expertise to improve and maintain various tools. His contributions focus on enhancing security, automating workflows, and ensuring the scalability of open-source solutions for the broader tech community.
